

- **I. Structured Mobile App User Flow**
- **1. Onboarding & Discovery**
- **Launch:** Install and open the app. View the branded splash screen, which includes the app icon and a short description of the author.
- **Home Screen (Returning User):** Instantly see a "Continue reading" widget at the top of the Home screen, resuming from the exact last position.
- **Home Screen (Discovery):** Browse the books list.
 - Identify the 1 bundled book available entirely offline immediately.
 - View other available remote books (fetching names and cover images when online), marked with a specific download icon indicating they can be saved locally.
- **Author Profile:** Navigate to view the "About Author" page.
- **2. Navigation & Reading Experience**
- **Book Details:** Open a book's detail page to find its chapter list.
- **Reading:** Open a chapter.
 - *IMAGE Book:* Swipe horizontally through page images.
 - *TEXT Book:* Scroll vertically through text content.
- **Progression & Tracking:** Move seamlessly to the next or previous chapter. The app continuously tracks and saves the reading position.
- **Bookmarks & Favorites:** Bookmark specific pages or chapters and open the saved bookmarks list. Add entire books to a Favorites list and access them later. Return easily to the last opened book.
- **3. Audio Player Integration**
- **Playback:** Start audio playback for a chapter (if available). Pause, resume, and seek forward or backward.
- **Preferences:** Change the audio playback speed and save this preference in permanent storage so it persists across sessions.
- **4. Download & Offline Management**
- **Decoupled Downloads:** Download audio files *separately* from the visual chapter content (images/text) to save space.
- **Granular Saving:** Download chapters one by one into permanent storage; downloading an entire book (or the full bundled assets of a chapter if you only want text) is not required.
- **Bulk Saving:** Choose to download all remaining chapters or the full book into permanent storage.

- **Resiliency & Tracking:** View live download progress and easily retry any failed downloads.
- **Storage Management:** Check overall app storage usage to manage local SQLite and media file footprints.
- **5. Updates & Settings**
- **Smart Syncing:**
 - Receive update notifications for changed chapters when online.
 - Automatically download TEXT content updates in the background without prompting.
 - Receive prompts to download updated image or audio content, saving the new assets to permanent storage upon approval.
- **Preferences:** Toggle dark mode on or off. Open general app settings.
